SOME OF THE KEY FEATURES OF DAWN TELEMATICS INCLUDE:

- Real-time tracking: Dawn Telematics allows users to track their vehicles, assets, or personnel in real-time, which can help improve safety and efficiency.
- Geofencing: Users can set up virtual boundaries or geofences around specific areas, and they will receive alerts if a tracked object or person enters or exits that area.
- Reporting: Dawn Telematics provides detailed reports that can help users analyze and optimize their operations. These reports can include information such as vehicle speed, fuel consumption, and distance traveled.
